

Overview of the Italian Financial CERT model

Simone Coltellese

Cyber Security and Fraud Analyst

Italian Financial CERT

When is it born?

CERTFin was established on 1 January 2017

What is CERTFin?

Who can participate?

CERTFin – Italian Financial CERT is a **public-private partnership initiative** targeted to enhance both the ability of banking and financial operators to manage cyber risks and the cyber resilience in the Italian financial system.

The participation to CERTFin is open, on a voluntary base, for every operator of the national banking and financial sector: payment service providers, banking and financial intermediaries, insurance companies, market infrastructures operators, services centres and providers of services technologically relevant for the sector.

Governance

ABI IVASS Ania **CONSOB**

Strategic Committee

it sets the CERT's governance policies and industry development guidelines in response to trends in fraudulent phenomena and cyber-attacks

Steering Committee

it directs operational management of the service offered to the Constituency and provides an overview of the current situation and its impact on the industry

Operational Directorate

it is responsible for CERTFin's operating activities, recordkeeping for committees and managing participants

Virtual Team

group of members that actively contribute with own resources to the CERTFin operation, under the coordination of the Operational Directorate

Services & Activities

CERTFIN's Network

CERTFin

Our Challenge for the Future

CERTFin

Setup a Financial CERTs global infosharing network
