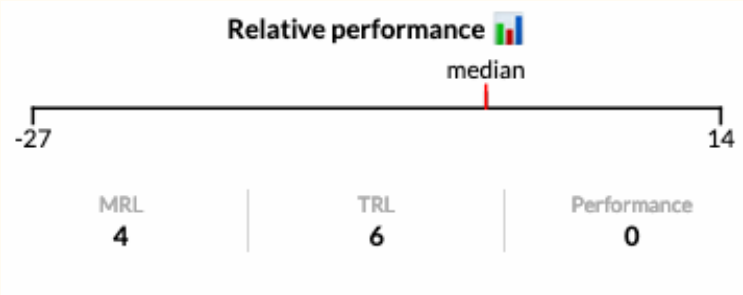
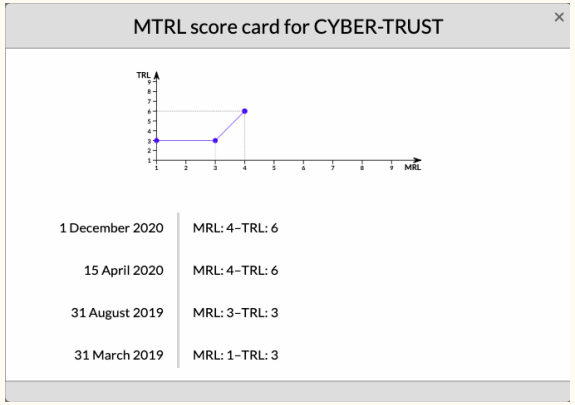
Radar visualization elements: project's performance

- Market and Technology Readiness Level
  - Based on self-assessment carried out by 60+ projects in 2019-2021
  - With many projects regularly submitting MTRL scores, we can calculate "relative performance" with other projects
  - Traffic-light Coloured dots show the project Market and Technology readiness level relative to the average of their lifecycle stage and radar domain. Green showing fastest relative progress.





2 Greatly prepared

2 Very prepared

2 Fairly prepared

2 Poorly prepared

2 Insufficiently prepared

2 No information

2 project readiness level clusters formed & sector specific clusters now collaborating
Visualises projects relative performance and where the project stand with its peers
